TRUSTEES' REPORT.

1

To His Excellency the Governor and the Honorable Council.

The Trustees of the Worcester Lunatic Hospital respectfully submit their fifty-second annual report. The accompanying reports of the Treasurer and Superintendent give detailed statements of the affairs of the institution as they were administered during the past year. By the report of the Treasurer it appears that the cash on hand Sept. 30, 1883, was \$24,070.34. The receipts from all sources during the year just now closed added to this sum make the total receipts \$175,575.24.

The total expenses have amounted to \$139,452.08, leaving a balance of cash on hand Sept. 30, 1884, of \$36,123.16.

The advantage of the possession of a surplus fund is fully appreciated, whenever, as is often the case, we are obliged to incur expenses out of the ordinary course in improving our appliances and adding to our facilities for meeting the requirements of nearly one thousand persons, whose home, temporarily at least, is within this enclosure. Outlays of this nature during the year, amounting to nearly \$4,000 have been made chiefly on improvements on the premises outside of the main building.

The sale of land adjacent to the asylum has progressed rapidly, and many buildings have been erected on the lots sold, thereby adding, it is believed, to the value of the land remaining. The Treasurer's report shows that \$56,805.29 in money and mortgage notes have been paid over to the State Treasurer from the sale of land since 1874, and states that the State Treasurer acknowledges the receipt of \$58,883.26 from the same source during the years previous to July 30, 1874.

The average number of patients has been 751, and in caring for this number it is found that the capacity of the building has been reached. It has been found necessary to remove to Tewksbury twenty-two, to make room for the entrance of others who could be best cared for here. This increase in the number of patients has required a corresponding increase in the number of attendants.

The sanitary condition of the hospital is to be commended. No epidemic has prevailed, there has been but little sickness, and the rate of mortality has been low.

The good health of the patients is perhaps accounted for in a measure by the efforts of the management to furnish all who are physically well with agreeable employment and recreation. The spacious grounds without and the well arranged library within furnish opportunities for both which are availed of and appreciated. The products of the farm have been abundant, and as proof of their excellence it may be stated that the first prize for the best display of vegetables was awarded to the institution at the last fair of the Worcester County Agricultural Society.

No change, we are happy to state, has occurred in the medical staff or among the resident officers. We should find it very difficult to supply their places should any of them retire from service, and we wish to renew the expression of our appreciation of the fidelity and ability of the Superintendent, Dr. Park, and of all who labor with him in the care of the hospital.

The regular meetings of the Trustees have been fully attended and they have endeavored to inspect with care all departments, but it is evident that the successful management of such an institution depends primarily on the executive officers who have it in immediate charge.

A. G. BULLOCK.

Respectfully submitted,

ALBERT WOOD, *Treasurer.*

WORCESTER, MASS., Oct. 16, 1884.

The undersigned has carefully compared the Treasurer's statement of expenditures for the year ending Sept. 30, 1884, with the vouchers which are on file at the hospital, and found it to be correct. He has inspected the securities for the invested funds, and found them to correspond with the Treasurer's statement of their market value; and he has compared the statement of expenditures in the land account with the vouchers, and found it correct.

THOMAS H. GAGE,
Auditor of Accounts.

SUPERINTENDENT'S REPORT.

To the Board of Trustees of the Worcester Lunatic Hospital.

I respectfully submit the following fifty-second annual report of the hospital.

A reference to the statistical tables will give an account of the operations and results obtained in detail. There were remaining in the hospital Sept. 30, 1883, 731 patients. The number of admissions since has been 252, representing 240 persons, making the whole number under treatment 983 : 482 of whom were males, and 501 females. The daily average number was 750.99. The largest number on any one day was 783 on Sept. 4, and the smallest 726 on Jan. 27 and 28. Of this number 12 have been readmissions, and transfers from other institutions have been as follows :—

From Danvers 25 females and 16 males ; from McLean Asylum 1 male ; from Hartford Retreat 1 female ; from Herbert Hall 1 female ; from the State Prison at Concord 2 males, and from the Reformatory Prison for Women 6. The discharges have been 234 : 104 men and 130 women. Of this number 53 were recovered, 36 much improved, 35 improved, 51 not improved, 2 not insane, and 57—33 men and 24 women—died. Of those who recovered 16 had been former inmates, of whom 14 had been discharged recovered : one 12 times, two 6 times, one 5 times, one 4 times, one 3 times, eight once each, one not improved and one improved ; these 14 persons representing in the statistics of the hospital 38 recoveries. The general health of the inmates during the year has been good. Just at its close one case of typhoid fever has appeared, the patient being a female attendant. No cause has been discovered in any defective drainage.

The population of the hospital has steadily increased since it was opened and during the year the limit of its comfortable capacity has been attained. To make room for new admissions 22 transfers of incurable State patients have been made to the State Almshouse at Tewksbury. As that institution is now full the question of what is to be done with the surplus, consisting mostly of the chronic insane, has already become a serious one. The legislature of last year failed to make provision for this rapidly increasing class, as well as for the criminal insane, although the necessity of such provision was urgently brought to their notice. The objections to confining this latter class in the same building with the other insane have been shown in my former reports. I believe that these and other objections still exist and that the best results for all classes can only be obtained by making separate provision for the criminal insane. During the year the night service of the hospital has been increased. At this time there are four employees doing general night watching: two on the male and two on the female side of the house. There are two attendants on duty on the suicidal wards, one on each side, and one night watchman in the ward for the criminal insane. In addition to this, special details are made for individual cases of sickness or for those requiring constant watching. The need and advantage of employment and occupation for the insane, who from the nature of their malady constantly gravitate towards habits of idleness and listlessness, is keenly recognized by every one having them in charge. Various kinds of work, both out and indoor, is furnished. Through the generosity of one of your number fifty dollars has been spent in the purchase of yarn to encourage the female patients to knit. This occupation was taken kindly to by many of them, even by those who have little mind left, and while some of the stockings as originally knit seemed adapted to the feet of a race now extinct, if it ever existed, and were unsalable, they could be easily unravelled and remade. In this way a large number who would otherwise have spent their time in absolute idleness or worse, came to be quite expert in the use of the needles.

I am having made two hand looms for weaving rugs and mats, and as some of our patients were weavers, both in the

old country and this, I hope to have some satisfactory work done by both sexes in this direction.

The library continues to be a source of enjoyment to many of the patients. The books are delivered regularly twice a week, the selections being made from the catalogue and the number of the book being placed upon a card which is handed to the librarian. Dictionaries and atlases have been placed upon several of the wards and are much used. There are 1,033 volumes in the library and the loans have been 3,844 during the year. Since the library was founded, six years ago, only six books have been destroyed or lost. Considerable work has been done in photography by Drs. Flood and Houston, and in addition to many very pretty outdoor views a large collection of pictures has been made illustrating the positions and features of the different types of insanity. These likenesses are also useful as a means of identification in cases of elopement.

There have been various improvements made on the hospital estate during the year. The triangular piece of land at the corner of Shrewsbury and Belmont streets has been graded, seeded, and enclosed by a picket fence. The cost of engineering, building retaining wall, grading, ditching, loam and fencing, was \$937.34.

The old barn at the entrance of the grounds was torn down and rebuilt in a more convenient location in the rear of the hospital. A large dry cellar, 45 by 60 feet, with cemented floor suitable for the storage of apples and vegetables was constructed under this barn. The building itself was slated, clapboarded and painted. The cost of this improvement was \$1,497.55. Seventy rods of substantial stone wall have been built upon the boundary lines of the hospital premises.

The products of the farm and garden have been usually abundant, and a large number of patients in charge of attendants have been employed in outdoor labor with much benefit to themselves.

An electric fire-alarm station connecting with the city system has been established at the hospital, and an immediate alarm can now be given to the fire department in case of necessity.

During the last session of the legislature several laws were passed affecting the government and management of the lunatic hospitals of the State. One of them increases the number of the trustees from five to seven, — the additional two being women; another provides for the appointment, after the first of next January, of a female physician upon the medical staff; the third, and perhaps the most important, is entitled “An Act to improve the civil service of the Commonwealth and the cities thereof.” If the conditions of this law are construed to apply to the various State institutions, the selection of officers, employees and laborers for the vacancies which may occur, will be made only after an examination by a board appointed by the civil service commissioners under the law and in accordance with such rules as they may establish. This involves a radical change in the method heretofore adopted in making appointments in the civil service corps of the hospitals. It confines the trustees and superintendent to the selection of such officers, attendants and other employees as may have passed an examination for the respective positions before a board appointed by the commissioners. The success of this departure from the old method can only be demonstrated by experience. The difficulty of obtaining a sufficient number of attendants is at certain seasons of the year a source of anxiety to the hospital officers. Any change in the method of appointment which will lighten this burden will certainly be a measure of relief to the superintendents.

A reference to the Treasurer’s report shows the financial condition of the hospital to be satisfactory. The total current expense, exclusive of the extraordinary expenditures, was \$134,390.79, making the annual cost of each patient \$178.95 or \$3.44 per week.

There has been no change during the year in the corps of officers. I desire to acknowledge the faithful service they, as well as the subordinate officers and attendants who remain, have, each in their respective departments, rendered to the hospital. They have shown, as a rule, an individual pride in their work, so necessary to success in any undertaking.

For the assistance which your advice and cordial support has been to me in meeting the obligations of my office, I feel very grateful.

JOHN G. PARK,
Superintendent.

WORCESTER LUNATIC HOSPITAL, Oct. 1, 1884.

Died, ...	3	3	6	—	—	—
Remaining in the hospital Sept. 30, 1884, ...	2	3	5	38	37	75

Showing the Results of Seventh Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of seventh admissions, ...	-	-	-	25	24	49
Discharged recovered, ...	14	16	30	-	-	-
improved, ...	5	4	9	-	-	-
not improved, ...	3	1	4	-	-	-
Died, ...	3	2	5	-	-	-
Remaining in the hospital Sept. 30, 1884, ...	-	1	1	25	24	49

Showing the Results of Eighth Admissions.

Number of eighth admissions, ...	-	-	-	19	18	37
Discharged recovered, ...	9	13	22	-	-	-
improved, ...	9	3	12	-	-	-
not improved, ...	1	2	3	19	18	37

Showing the Results of Ninth Admissions.

Number of ninth admissions, ...	-	-	-	15	16	31
Discharged recovered, ...	9	11	20	-	-	-
improved, ...	4	4	8	-	-	-
not improved, ...	1	1	2	-	-	-
Died, ...	1	-	1	15	16	31

Showing the Results of Tenth Admissions.

Number of tenth admissions, ...	-	-	-	13	14	27
Discharged recovered, ...	6	11	17	-	-	-
improved, ...	6	2	8	-	-	-
not improved, ...	1	1	2	13	14	27

Showing the Results of Eleventh Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of eleventh admissions, ...	—	—	—	11	13	24
Discharged recovered, ...	3	9	12	—	—	—
improved, ...	6	3	9	—	—	—
not improved, ...	1	1	2	—	—	—
Died, ...	1	—	1	11	13	24

Showing the Results of Twelfth Admissions.

Number of twelfth admissions, ...	—	—	—	9	10	19
Discharged recovered, ...	3	9	12	—	—	—
improved, ...	4	1	5	—	—	—
not improved, ...	1	—	1	—	—	—
Died, ...	1	—	1	9	10	19

Showing the Results of Thirteenth Admissions.

Number of thirteenth admissions, ...	—	—	—	7	9	16
Discharged recovered, ...	3	8	11	—	—	—
improved, ...	3	—	3	—	—	—
not improved, ...	1	—	1	—	—	—
Remaining in the hospital Sept. 30, 1884, ...	—	1	1	7	9	16

Showing the Results of Fourteenth Admissions.

Number of fourteenth admissions, ...	—	—	—	5	7	12
Discharged recovered, ...	3	5	8	—	—	—
improved, ...	2	1	3	—	—	—
Died, ...	—	1	1	5	7	12

Showing the Results of Fifteenth Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of fifteenth admissions, ...	—	—	—	4	5	9
Discharged recovered, ...	2	3	5	—	—	—
improved, ...	2	1	3	—	—	—
Died, ...	—	1	1	4	5	9

Showing the Results of Sixteenth Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of sixteenth admissions, ...	—	—	—	2	3	5
Discharged recovered, ...	1	2	3	—	—	—
improved, ...	1	—	1	—	—	—
Remaining in the hospital Sept. 30, 1884, ...	—	1	1	2	3	5

Showing the Results of Seventeenth Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of seventeenth admissions, ...	—	—	—	2	2	4
Discharged recovered, ...	2	1	3	—	—	—
not improved, ...	—	1	1	2	2	4

Showing the Results of Eighteenth Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of eighteenth admissions, ...	—	—	—	2	2	4
Discharged recovered, ...	1	1	2	—	—	—
improved, ...	1	—	1	—	—	—
Died, ...	—	1	1	2	2	4

Showing the Results of Nineteenth Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of nineteenth admissions, ...	—	—	—	1	1	2
Discharged recovered, ...	—	1	1	—	—	—
improved, ...	1	—	1	1	1	2

Showing the Results of Twentieth Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of twentieth admissions, ...	-	-	-	-	1	1
Discharged recovered, ...	-	1	1	-	-	-

Showing the Results of Twenty-first Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of twenty-first admissions, ...	-	-	-	-	1	1
Discharged recovered, ...	-	1	1	-	-	-

Showing the Results of Twenty-second Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of twenty-second admissions, ...	-	-	-	-	1	1
Discharged recovered, ...	-	1	1	-	-	-

Showing the Results of Twenty-third Admissions.

	Males.	Females.	Total.	Males.	Females.	Total.
Number of twenty-third admissions, ...	-	-	-	-	1	1
Discharged recovered, ...	-	1	1	-	-	-
